SUMMARY

As a Full Stack Developer with skills in React.js, Node.js, and MongoDB, I create scalable applications and high-performance APIs with responsive designs. My background in sales management contributes to my ability to tailor solutions to customers' needs, and my knowledge of OpenAI technologies enables me to integrate AI-driven features like chatbots and recommendation systems. Committed to continuous learning, I aim to create meaningful, user-focused applications that prioritize functionality and flexibility.

EDUCATION

Full Stack Web & App Development
